### **Island Refrigeration and Marine Electrical**

## Marine Commercial Electronics Technician

Pay: \$25-\$40+/hour DOE, Managerial Experience ++

#### **About Us:**

Alaska Commercial Electronics (ACE), in partnership with Island Refrigeration & Marine Electrical, provides electronics installation, integration, and repair for Southeast Alaska's commercial fishing fleet as well as state vessels. We service radar, sonar, navigation, communication, computer networks, and control systems.

#### Pay & Benefits:

- \$25-\$40+/hour DOE, Managerial Experience ++
- 40 hours paid time off annually
- Overtime opportunities
- On-the-job training, software, and certification support
- Company fuel card for personal vehicle use
- Temporary housing assistance available for relocation to Petersburg, AK
- Partnership, profit-sharing and investment opportunities after 1 year

### **Responsibilities:**

- Install, repair, and integrate marine electronics including radar, sonar, fish finders, autopilots, GPS, and radios
- Diagnose and troubleshoot software, firmware, and hardware issues
- Program, configure, and integrate electronics across multiple platforms
- Service land-based communication systems (mobile radios, security cameras, control systems)
- Document work and record time/materials.

### Responsibilities cont'd:

- -Take phone calls from customers and manage a schedule
- -Work together with our Purchasing Coordinator to place orders
- -Work alongside other crew or independently

### Requirements:

- -Ability to relocate to Petersburg, AK. Temporary housing can be arranged.
- -Ability to see to great need of this industry and willingness to help expand our scope
- -Ability to embrace and adapt new technologies and pursue vendor relationships
- Knowledge of electronic theory and antenna principles
- Experience with computers, networking, and marine electronics
- Ability to read schematics and troubleshoot complex systems
- FCC GROL, NMEA, ABYC or equivalent certifications preferred
- Strong problem-solving and communication skills
- Ability to work independently and manage projects
- -Ability to research, spec and source equipment and maintain inventory.
- Fishing industry experience preferred
- -Travel to other towns in Southeast Alaska at times.

#### **Work Environment:**

Service often takes place aboard fishing vessels or in marine environments. Candidates must be comfortable working in varied conditions. Must be able to work in tight spaces and at heights. Modern workshop and fabrication shop for projects

#### Schedule:

Full-time with occasional overtime and irregular hours based on vessel operations. Regular business hours are Mon-Fri 8am-5pm with a rotating on-call schedule in the summer months. Flexible.

#### **Professional Growth:**

We provide training on emerging marine technologies and certifications to expand your expertise. Management of this position is strongly preferred. A candidate who is able to see the opportunity within the fleets of the Pacific Northwest and has vision and ambition has endless potential for self-growth. We want to support this!

# **Equal Opportunity Statement:**

Alaska Commercial Electronics is an equal opportunity employer. We consider all qualified applicants without regard to race, color, religion, sex, national origin, disability, veteran status, or any other protected characteristic.

### **Application Instructions:**

To apply, please send a resume and brief cover letter to Brock@islandref.com Be sure to include "Marine Commercial Electronics Technician" in the subject line.
